# ENTREPRENEURIAL PRACTICE

**2018/2019**

## PREREQUISITE/RECOMMENDED PREREQUISITE FOR PARTICIPATION IN THE MODULE

The module adds to the knowledge obtained in 1st Semester.

## CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

### LEARNING OBJECTIVES

#### KNOWLEDGE

The student must be able to:

- Describe and understand general capabilities needed for organisations to become and stay innovative in their business development.
- Describe and understand general abilities and conditions needed for people to become and stay entrepreneurial.
- Describe and understand tools and methods for supporting entrepreneurial processes with an emphasis on discovery processes.
- Describe and understand theories of creative methodologies and creative mind-set (dedicated resources will be allocated for the initiation and sustaining of the objective).

#### SKILLS

The student must be able to:

- Identify and analyse a need or problem using various theoretical perspectives related to a business development process.
- Use creative theory and methods in discovery processes.
- Be able to assess and analyse the entrepreneurial/innovation capabilities of the unit of analysis in focus.
- The student must be able to identify possible conceptual solutions or development directions for solutions by using theory and creative skills.

#### COMPETENCES

The student must be able to:

- Approach an empirical field and identify a problem or need related to innovative and/or entrepreneurial processes and theories thereof, with an emphasis on discovery.
- Contribute to the development of a conceptual solution by relating innovation and/or entrepreneurship theories with empirical insight.
- Critically evaluate analysis and solutions.
- Situational application/facilitation of creative skills (dedicated resources will be allocated to the initiation and sustaining of the objective).

#### TYPE OF INSTRUCTION

The module is carried out as group-based, problem-oriented project work. The group work is carried out as an independent work process in which the students themselves organise and coordinate their workload in collaboration with a supervisor. The project is carried out in groups with normally no more than 6 members.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 15 ECTS project module the expected workload is 450 hours for the student.

## EXAM

### EXAMS

Name of exam	Entrepreneurial Practice
Type of exam	Oral exam based on a project The learning outcome is measured individually during oral group examination.
ECTS	15
Assessment	7-point grading scale
Type of grading	Internal examination

### FACTS ABOUT THE MODULE

Danish title	Praktisk entreprenørskab
Module code	M-EE-K1-1
Module type	Project
Duration	1 semester
Semester	Autumn
ECTS	15
Language of instruction	English
Empty-place Scheme	Yes
Location of the lecture	Campus Aalborg
Responsible for the module	<a href="#">Frank Gertsen</a>

Faculty	Faculty of Engineering and Science

# AGILE BUSINESS NAVIGATION

2018/2019

## CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

### LEARNING OBJECTIVES

#### KNOWLEDGE

- The student will be able to understand the different positions within agile methods.
- The student will be able to understand the underlying methodology behind innovative agile business processes.
- The student will be able to navigate between agile methods related to different practical business constraints.
- The student will be able to understand human and own preferences in order to understand group dynamic within an innovative, agile team.

#### SKILLS

- The student will be able to navigate with agile methods related to different business cases and related to problem areas in an organization context.
- The student will be able to navigate through innovative agile processes using methods to sustain high innovation capacity through a project cycle from idea to finalizing.
- The student will be able to navigate in a multidisciplinary business environment with different business drivers in order to bring most value to an innovative project cycle.
- The student will be able to set, supply and navigate an interdisciplinary team through an innovative project cycle including the facilitation of agile processes.

#### COMPETENCES

- Reflect on the innovative, agile processes in relation to relevant agile methods.
- The student will enhance his or her personal level of innovative businesses navigation.

#### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

### EXAMS

Name of exam	Agile Business Navigation
Type of exam	Written or oral exam
ECTS	5
Assessment	Passed/Not Passed
Type of grading	Internal examination

## FACTS ABOUT THE MODULE

Danish title	Agile forretningsudviklingsmetoder
Module code	M-EE-K1-2
Module type	Course
Duration	1 semester
Semester	Autumn
ECTS	5
Language of instruction	English
Empty-place Scheme	Yes
Location of the lecture	Campus Aalborg
Responsible for the module	<a href="#">Claus Andreas Foss Rosenstand</a>

# DESIGN BASED INNOVATION

## 2018/2019

### CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

#### LEARNING OBJECTIVES

##### KNOWLEDGE

- Must understand the prototyping process and the strengths and weaknesses of fast prototyping.
- Must understand the concept of problem framing and reframing through a rapid and iterative prototyping process for developing a product/service business concept..
- Must understand the process of user-driven innovation used in a prototyping process.

##### SKILLS

- Must be able to use observation, interviews and other research methods to collect data on user/customer behaviour.
- Must be able to transform data on user/customer behavior into specifications and demands and subsequently use this as basis for problem framing and a prototyping process.
- Must be able to apply prototyping tools to problem solving, product-, service and business development.
- Must be able to work through and document a process of design-driven innovation.
- Must be able to frame specific problem-areas and/or opportunities.

##### COMPETENCES

- Must be able to plan and execute a prototyping process that to a large extent involves users, customers and other stakeholders.
- Must be able to navigate through and facilitate an open-ended process.
- Must be able to reflect on the process and outcome of the prototyping process within a business development context.

#### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

#### EXAMS

Name of exam	Design Based Innovation
Type of exam	Written or oral exam
ECTS	5
Assessment	7-point grading scale
Type of grading	Internal examination

## FACTS ABOUT THE MODULE

# UNDERSTANDING ENTREPRENEURSHIP

**2018/2019**

## CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

### LEARNING OBJECTIVES

#### KNOWLEDGE

- The students will acquire an understanding of entrepreneurship concepts and theories, methods and tools.
- The student must understand theories of the entrepreneurial role at a personal, organisational as well as societal level.

#### SKILLS

- The student must be able to analyse entrepreneurial problems by using relevant theory, methods and tools
- The students must be able to use theory in analysing entrepreneurial challenges at the personal and organisational level.

#### COMPETENCES

- The student must be able to select and use various relevant theoretical perspectives, methods and tools in relation to the planning and engaging in entrepreneurial business development processes.

### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

### EXAMS

Name of exam	Understanding Entrepreneurship
Type of exam	Written or oral exam
ECTS	5
Assessment	7-point grading scale
Type of grading	Internal examination

## FACTS ABOUT THE MODULE

Danish title	Entreprenørskabsforståelse

# TAKTISK ENTREPRENØRSKAB

2018/2019

## FORUDSÆTNINGER/ANBEFALEDE FORUDSÆTNINGER FOR AT DELTAGE I MODULET

1. Semester courses and project (or equivalent)

## MODULETS INDHOLD, FORLØB OG PÆDAGOGIK

### LÆRINGSMÅL

#### VIDEN

- Describe and understand processes, methods, tools, and associated resources needed for people and companies to become and stay innovative, with an emphasis on incubation processes.
- Describe and understand specific tools and methods for supporting entrepreneurial processes.
- Describe and understand advanced theories of creative methodologies and creative mind-set.

#### FÆRDIGHEDER

- The student must be able to use sound research methods to identify and analyse a need or problem using various theoretical perspectives related to a business development processes with an emphasis on incubation processes.
- The student must be able to experiment with possible conceptual solutions or development in order to develop new business or to leverage the innovation capability directions by using practice insights, theory and creative skills.
- The student must be able to facilitate creative processes (dedicated resources will be allocated to the initiation and sustaining of the objective) and excel in communication.

#### KOMPETENCER

- The student must be able to approach an empirical field using scientifically sound methods and informed by theory experiment with conceptual solutions in relation to market/users, technology, organisation, and resources.
- Contribute to creative further development of a conceptual solution by combining innovation and/or entrepreneurship theories with empirical insight.
- Critically evaluate own analysis and solutions.
- Situational application/facilitation of creative skills (dedicated resources will be allocated to the initiation and sustaining of the objective).

#### UNDERVISNINGSFORM

The module is carried out as group-based, problem-oriented project work. The group work is carried out as an independent work process in which the students themselves organise and coordinate their workload in collaboration with a supervisor. The project is carried out in groups with normally no more than 6 members.

#### OMFANG OG FORVENTET ARBEJDSINDSATS

Since it is a 15 ECTS course module the expected workload is 450 hours for the student.

# CORPORATE ENTREPRENEURSHIP

## 2018/2019

### CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

#### LEARNING OBJECTIVES

##### KNOWLEDGE

- Gain theoretical insight into high impact innovation concepts such as corporate entrepreneurship, disruptive innovation, breakthrough/radical innovation/innovation.
- Understand the role and impact of corporate entrepreneurship/(radical) innovation in organisations.
- Understanding high-impact innovation processes and how to organize them in and around companies

##### SKILLS

- Be able to identify and analyse challenges of corporate entrepreneurship/innovation in organizations.
- Be able to choose and use relevant theories, methods, and tools.

##### COMPETENCES

- Be able to audit, evaluate and contribute to design of the innovative capabilities of an established organisation.
- Be able to better navigate in contexts of corporate entrepreneurship/(radical) innovation given the complexity, politics and emergent nature of the processes.
- Ability to develop conceptual solutions to the challenges faced by established organisations when attempting to organise corporate entrepreneurship/(radical) innovation.

#### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

#### EXAMS

Name of exam	Corporate Entrepreneurship
Type of exam	Written or oral exam

# APPLIED BUSINESS MODELLING

## 2018/2019

### CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

#### LEARNING OBJECTIVES

##### KNOWLEDGE

- The student will be able to understand the different elements of the business model as well as the internal connections between the elements of the model.
- The student will be able to distinguish between different business models archetypes and how their design features differ.

##### SKILLS

- The student will be able to develop the most suitable business model for a new business based on data collected through desk- and field research.
- The student will be able to distinguish between different archetypes of business models and describe the implications of adopting a new business model within an existing business.
- The student will be able to use the business model as a strategic tool of communication within new business creation.
- The student will be able to unfold different scenarios through business model prototyping.

##### COMPETENCES

- The student will be able to analyse and develop new business with both an external and internal perspective through a business modeling approach.

#### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

#### EXAMS

Name of exam	Applied Business Modelling
Type of exam	Written or oral exam
ECTS	5
Assessment	7-point grading scale
Type of grading	Internal examination

# MARKETS, RESOURCES AND ENTREPRENEURSHIP

## 2018/2019

### CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

#### LEARNING OBJECTIVES

##### KNOWLEDGE

- The student will understand theories of market analysis and market development strategies and implementation of strategies.
- The student will understand and distinguish between the different types of financing, including: lending based, equity based and cash-flow based.

##### SKILLS

- The student will learn aspect of how to identify and analyse markets and how to make strategies for approaching the market.
- The student will learn how to address financing issues of the business from a resource standpoint.
- The students will learn to identify the most suitable form of financing and resource acquirement for a specific business.

##### COMPETENCES

- The student will be able to use methods of identifying a market, and develop a market strategy, and to implementing the strategy.
- The student will be able to identify the needs of the new business and approach potential stakeholders and key persons in order to acquire the resources to meet the needs.
- The student will be able to operate under the restraints of limited resources and optimize the usage of those resources.

#### TYPE OF INSTRUCTION

The teaching is organized in accordance with the general form of teaching. Please see the programme curriculum §17.

#### EXTENT AND EXPECTED WORKLOAD

Since it is a 5 ECTS course module the expected workload is 150 hours for the student.

## EXAM

#### EXAMS

Name of exam	Markets, Resources and Entrepreneurship
Type of exam	Written or oral exam
ECTS	5
Assessment	7-point grading scale
Type of grading	Internal examination

# ENTREPRENØRSKAB I STRATEGISK KONTEKST

2018/2019

## FORUDSÆTNINGER/ANBEFALEDE FORUDSÆTNINGER FOR AT DELTAGE I MODULET

The module adds to the knowledge obtained in 1st – 2nd Semester.

## MODULETS INDHOLD, FORLØB OG PÆDAGOGIK

### LÆRINGSMÅL

#### VIDEN

- Have gained knowledge and understanding of implementation/realisation aspects of entrepreneurship/new business innovation in the broader organisational context (including the impact on realised strategy).

#### FÆRDIGHEDER

- Be able to describe the problem solved and the criteria applied for its solution.
- Be able to analyse an organizational context, innovative capabilities and potential.
- Be able to evaluate the concepts, theories and methodologies applied to the solution of the problem.
- Be able to assess the limitations of the concepts, theories and methodologies applied in the solution of the problem.
- Be able to train creativity skills and excel in communication.

#### KOMPETENCER

- Be able to navigate and interact in an organizational context in the business development process (emphasis on implementation) through relevant choices of methods and use of theories.
- Be able to account for the choices made during the solution of the problem, and to substantiate that these are made at a professional level.
- Situational advanced application/facilitation of creative processes.

#### UNDERVISNINGSFORM

The Semester is carried out as a project at Aalborg University; the work is carried out as an independent work process in which the students themselves organise and coordinate their workload in collaboration with a supervisor. The project may be carried out individually or in teams. This format is used in case of a start-up project. The project may be finalized with a project report or in the form of a scientific paper.

#### OMFANG OG FORVENTET ARBEJDSINDSAT

Since it is a 30 ECTS course module the expected workload is 900 hours for the student.

## EKSAMEN

# TRAINEESHIP

**2018/2019**

## PREREQUISITE/RECOMMENDED PREREQUISITE FOR PARTICIPATION IN THE MODULE

The module adds to the knowledge obtained in 1st – 2nd Semester.

## CONTENT, PROGRESS AND PEDAGOGY OF THE MODULE

### LEARNING OBJECTIVES

#### KNOWLEDGE

- Have gained knowledge and understanding of implementation/realisation aspects of entrepreneurship/new business innovation in the broader organisational context (including the impact on realised strategy).

#### SKILLS

- Be able to describe the problem solved and the criteria applied for its solution.
- Be able to analyse an organizational context, innovative capabilities and potential.
- Be able to evaluate the concepts, theories and methodologies applied to the solution of the problem.
- Be able to assess the limitations of the concepts, theories and methodologies applied in the solution of the problem.
- Be able to train creativity skills and excel in communication.

#### COMPETENCES

- Be able to navigate and interact in an organizational context in the business development process (emphasis on implementation) through relevant choices of methods and use of theories.
- Be able to account for the choices made during the solution of the problem, and to substantiate that these are made at a professional level.
- Situational advanced application/facilitation of creative processes.

### TYPE OF INSTRUCTION

The semester is carried out as a voluntary traineeship (internship) at a company/organisation in Denmark or abroad, the student is included in the organisation's daily work of relevance to the Semester objectives. Concurrently as part of the internship, the student makes a report, which is evaluated after ending the internship. The student has a university supervisor and a contact person in the organization in which the internship takes place.

### EXTENT AND EXPECTED WORKLOAD

Since it is a 30 ECTS course module the expected workload is 900 hours for the student.

## EXAM

### EXAMS

Name of exam	Traineeship
Type of exam	Written or oral exam

# LANG KANDIDATSPECIALE

**2018/2019**

## FORUDSÆTNINGER/ANBEFALEDE FORUDSÆTNINGER FOR AT DELTAGE I MODULET

The module adds to the knowledge obtained in 1st – 2nd Semester.

## MODULETS INDHOLD, FORLØB OG PÆDAGOGIK

### LÆRINGSMÅL

#### VIDEN

- Demonstrate overview and deep knowledge regarding the chosen subject of relevancy to innovation and/or entrepreneurship.

#### FÆRDIGHEDER

- The student must be able to analyse a need or problem using various advanced theoretical perspectives related to the choice of specialization.
- The student must be able to critically identify possible conceptual solutions or development directions using theory and to contribute to the implementation of such solutions.
- Demonstrate good communication skills.

#### KOMPETENCER

- Contribute to the development of a conceptual solution by synthesizing innovation and/or entrepreneurship theories with empirical insight.
- Critically evaluate her/his own analysis and solutions.
- Contribute to the continuous development or enrichment of theories of entrepreneurship and/or innovation.

### UNDERVISNINGSFORM

In this module, the Master's Thesis is carried out. The module constitutes independent project work and concludes the programme. Within the approved topic, the Master's Thesis must document that the level of the programme has been attained.

### OMFANG OG FORVENTET ARBEJDSINDSAT

Since it is a 60 ECTS course module the expected workload is 1800 hours for the student.

## EKSAMEN

### PRØVER

Prøvens navn	Master's Thesis
Prøveform	Speciale/afgangsprojekt
ECTS	60
Bedømmelsesform	7-trins-skala
Censur	Ekstern prøve

## YDERLIGERE INFORMATIONER

The master thesis can be conducted as a long master thesis using both the 3<sup>rd</sup> and 4<sup>th</sup> Semester. If choosing to do a long master thesis, it has to include experimental work and has to be approved by the study board. The amount of experimental work must reflect the allotted ECTS

## FAKTA OM MODULET
