TABLE OF CONTENTS

§ 1: Preface	4
§ 2: Basis in Ministerial orders	4
§ 3: Campus	4
§ 4: Faculty affiliation	4
§ 5: Study board affiliation	4
§ 6: Affiliation to corps of external examiners	4
§ 7: Admission requirements	4
§ 8: The programme title in Danish and English	4
§ 9: Programme specifications in ECTS credits	5
§ 10: Rules concerning credit transfer (merit), including the possibility for choice of modules that are part of another programme at a university in Denmark or abroad	5
§ 11: Exemptions	5
§ 12: Rules for examinations	5
§ 13: Rules concerning written work, including the Master's Thesis	5
§ 14: Requirements regarding the reading of texts in a foreign language	5
§ 15: Competence profile on the diploma	5
§ 16: Competence profile of the programme	6
§ 17: Structure and Contents of the programme	7
§ 18: Overview of the programme	7
§ 19: Additional information	10
§ 20: Commencement and transitional rules	10
§ 21: Amendments to the curriculum and regulations	10

§ 1: PREFACE

Pursuant to consolidation Act 172 of February 27, 2018 on Universities (the University Act) with subsequent changes, the following curriculum is established. The programme also follows the Joint Programme Regulations and the Examination Policies and Procedures for The Faculty.

§ 2: BASIS IN MINISTERIAL ORDERS

The Master's programme is organised in accordance with the Ministry of Higher Education and Science's Order no. 1328 of November 15, 2016 on Bachelor's and Master's Programmes at Universities (the Ministerial Order of the Study Programmes) with subsequent changes and Ministerial Order no. 1062 of June 30, 2016 on University Examinations (the Examination Order) with subsequent changes. Further reference is made to Ministerial Order no. 106 of February 12, 2018 (the Admission Order) and Ministerial Order no. 114 of February 3, 2015 (the Grading Scale Order).

§ 3: CAMPUS

The programme is offered in Copenhagen.

§ 4: FACULTY AFFILIATION

The Master's programme falls under the The Technical Faculty of IT and Design.

§ 5: STUDY BOARD AFFILIATION

The Master's programme falls under the Study Board of Electronics and IT.

§ 6: AFFILIATION TO CORPS OF EXTERNAL EXAMINERS

The Master's programme is associated with the Nationwide engineering examiners/Electronics, IT and Energy (Electromagnetic direction).

§ 7: ADMISSION REQUIREMENTS

Applicants with a legal right of admission (retskrav):

Applicants with the following bachelor's degree are entitled to admission:

- Bachelor of Science (BSc) in Engineering (IT, Communication and New Media), Aalborg University

Applicants without legal right of admission

Bachelor's programmes qualifying students for admission:

- Elektronik og IT (AAU)
- Computerteknologi (former Internetteknologier og computersystemer) (AAU)
- Softwareteknologi (DTU) (BSc or BEng)
- Netværksteknologi og IT (DTU) (BSc)
- IT-Elektronik (DTU) (BEng)
- IT og økonomi (DTU) (BEng)

All students must document English language qualifications comparable to an 'English B level' in the Danish upper secondary school (minimum grade 02).

§ 8: THE PROGRAMME TITLE IN DANISH AND ENGLISH

The Master's programme entitles the graduate to the designation: Civilingeniør, cand.polyt. i innovativ kommunikationsteknik og entrepreneurskab

§ 9: PROGRAMME SPECIFICATIONS IN ECTS CREDITS

The Master's programme is a 2-year, research-based, full-time study programme. The programme is set to 120 ECTS credits.

§ 10: RULES CONCERNING CREDIT TRANSFER (MERIT), INCLUDING THE POSSIBILITY FOR CHOICE OF MODULES THAT ARE PART OF ANOTHER PROGRAMME AT A UNIVERSITY IN DENMARK OR ABROAD

The Study Board can approve that passed programme elements from other educational programmes at the same level replaces programme elements within this programme (credit transfer).

Furthermore, the Study Board can, upon application, approve that parts of this programme is completed at another university or a further education institution in Denmark or abroad (pre-approval of credit transfer).

The Study Board's decisions regarding credit transfer are based on an academic assessment.

§ 11: EXEMPTIONS

The Study Board's possibilities to grant exemption, including exemption to further examination attempts and special examination conditions, are stated in the Examination Policies and Procedures published at this website:

<https://www.studyservice.aau.dk/rules>

§ 12: RULES FOR EXAMINATIONS

The rules for examinations are stated in the Examination Policies and Procedures published at this website:

<https://www.studyservice.aau.dk/rules>

§ 13: RULES CONCERNING WRITTEN WORK, INCLUDING THE MASTER'S THESIS

In the assessment of all written work, regardless of the language it is written in, weight is also given to the student's formulation and spelling ability, in addition to the academic content. Orthographic and grammatical correctness as well as stylistic proficiency are taken as a basis for the evaluation of language performance. Language performance must always be included as an independent dimension of the total evaluation. However, no examination can be assessed as 'Pass' on the basis of good language performance alone; similarly, an examination normally cannot be assessed as 'Fail' on the basis of poor language performance alone.

The Study Board can grant exemption from this in special cases (e.g., dyslexia or a native language other than Danish).

The Master's Thesis must include an English summary. If the project is written in English, the summary can be in Danish. The summary is included in the evaluation of the project as a whole.

§ 14: REQUIREMENTS REGARDING THE READING OF TEXTS IN A FOREIGN LANGUAGE

It is assumed that the student can read academic texts in his or her native language as well as in English and use reference works etc.

§ 15: COMPETENCE PROFILE ON THE DIPLOMA

The following competence profile will appear on the diploma:

A Candidatus graduate has the following competency profile:

A Candidatus graduate has competencies that have been acquired via a course of study that has taken place in a research environment.

A Candidatus graduate is qualified for employment on the labour market based on his or her academic discipline as well as for further research (PhD programmes). A Candidatus graduate has, compared to a Bachelor, developed his or her academic knowledge and independence so as to be able to apply scientific theory and method on an independent basis within both an academic and a professional context.

§ 16: COMPETENCE PROFILE OF THE PROGRAMME

The graduate of the Master's programme:

Knowledge:

- has knowledge on information and communication technologies (ICT) that, in selected areas, is based on the highest international research
- understands the relevance of the needs of the end users, their use of ICT, and the mechanisms that influence the user experience and the acceptance of new technologies
- understands the importance of innovation, creativity and entrepreneurship for ICT solutions and services
- understands and can reflect, on a scientific basis, on the technical, organizational and market-related drivers in the convergence of ICT, as well as the interplay between technology, market and user issues
- has a holistic understanding of the environment of ICT services and solutions: Scenarios of use, target users, stakeholders, business aspects, and societal implications at large
- has in-depth knowledge of service enablers, personalization and the use of context information for enrichment of services
- has in-depth knowledge and understanding of principles and technologies related to privacy, trust, computer ethics, and identity and access management
- has knowledge on state-of-the-art network technologies, Internet technologies and service architectures, e.g. Internet of Things, cloud architectures, heterogeneous networks, distributed systems, and Application Programming Interfaces (APIs)
- has knowledge of machine learning algorithms and their application
- has knowledge on ICT standards and standardization processes, and their significance from a commercialization and market perspective
- understands the importance of public and non-governmental governance structures for the development and use of ICTs
- has in-depth knowledge and understanding of ICT-related business models and cases
- has in-depth knowledge on economic concepts and tools relevant for preparing a market analysis

Skills:

- can identify scientific problems within the field of ICT
- can evaluate and select among scientific theories, methods and tools, and – on a scientific basis – advance new analyses and solutions within applied ICT
- can efficiently communicate research-based knowledge and discuss professional and scientific problems with both peers and non-specialists
- can produce scientific writing: Articles, reports, documentation, etc.
- can apply scientific methods, tools and general skills within the field of ICT
- can identify and select among relevant standards, technologies and methods for development of ICT solutions and services
- can assess the market, ethical and regulatory framework for application of the technologies
- can develop innovative services, applications and solutions at a conceptual level, which are relevant in a user perspective
- can develop concepts, prototypes or demonstrators of viable ICT solutions and services,
 - based on an in-depth analysis of user requirements, technology and market issues,
 - using state-of-the-art methods, technologies and tools, and
 - addressing computer ethics, privacy protection and identity management
- can apply machine learning techniques to analyse and process data as part of a service
- can assess the implications and business potential of new ICT solutions and services and develop viable business models and strategies
- can prepare a business plan with a detailed financial analysis for introducing an ICT solution or service

Competences:

- can manage work and development situations that are complex, unpredictable and require new solutions

Curriculum for the Master's Programme in Innovative Communication Technologies and Entrepreneurship, 2019

- can independently initiate and implement discipline-specific and interdisciplinary cooperation and assume professional responsibility
- can independently take responsibility for own professional development and specialisation
- has competencies in project work and problem-based learning in a global/multicultural environment
- can mediate collaboration and information exchange between development- and business-related functions in organizations.
- has competencies in innovation and entrepreneurship that can be used to transform the potentials of new ICT and media technologies into new solutions and services with an engineering approach
- can contribute creatively and innovatively to propose and develop new ICT services/solutions respecting and challenging established legal rules and design principles.
- has competencies in business development with a holistic perspective, based on a thorough understanding of the interplay between technology, market and users in ICT and media
- has competencies in innovation and entrepreneurship that can be used to formulate strategies exploiting the potentials of new ICT and media technologies with an engineering approach

§ 17: STRUCTURE AND CONTENTS OF THE PROGRAMME

The programme is structured in modules and organised as a problem-based study. A module is a programme element or a group of programme elements, which aims to give students a set of professional skills within a fixed time frame specified in ECTS credits, and concluding with one or more examinations within specific exam periods. Examinations are defined in the curriculum.

The programme is based on a combination of academic, problem-oriented and interdisciplinary approaches and organized based on the following work and evaluation methods that combine skills and reflection:

- lectures
- classroom instruction
- project work
- workshops
- exercises (individually and in groups)
- self-study
- teacher feedback
- reflection
- portfolio work

§ 18: OVERVIEW OF THE PROGRAMME

In total, 95 ECTS out of 120 ECTS are common for all students. The common part consists of:

- All courses and projects on the first and second semester
- 1 mandatory course on “Managerial economics and entrepreneurship” (5 ECTS) on the 3rd semester, and
- The thesis project on the 4th semester

Electives: The remaining 25 ECTS can be obtained by choosing elective courses and projects on the 3rd semester as described below. Note that elective courses might not be offered if less than 10 students sign up.

All modules are assessed through individual grading according to the 7-point scale or Pass/Fail. All modules are assessed by external examination (external grading) or internal examination (internal grading or by assessment by the supervisor only).”

Offered as: 1-professional

Curriculum for the Master's Programme in Innovative Communication Technologies and Entrepreneurship, 2019

Module name	Course type	ECTS	Applied grading scale	Evaluation method	Assessment method	Language
1 SEMESTER						
Services and Platforms (ESNICTEK1P1N)	Project	15	7-point grading scale	Internal examination	Oral exam based on a project	English
Communication Systems (ESNICTEK1K4N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Innovation and Business Models (ESNICTEK1K5N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Internet Technologies and Service Architectures (ESNICTEK1K6N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
2 SEMESTER						
ICT Services: Design and Architectures (ESNICTEK2P3N)	Project	10	7-point grading scale	External examination	Oral exam based on a project	English
Internet Services and Governance (ESNICTEK2K6N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Identity and Access Management (ESNICTEK2K2N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Machine Learning (ESNICTEK2K7N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
User Experience and Computer Ethics (ESNICTEK2K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3 SEMESTER Option A1						
Advanced ICT Solutions (ESNICTEK3P1)	Project	15	7-point grading scale	Internal examination	Oral exam based on a project	English
Managerial Economics and Entrepreneurship (ESNICTEK3K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3rd Semester Elective courses (2 courses) Choose 2 course modules	Course	10				
3 SEMESTER Option A2						
Sustainable Digital Transformation (ESNICTEK3P4N)	Project	15	7-point grading scale	Internal examination	Oral exam based on a project	English
Managerial Economics and Entrepreneurship (ESNICTEK3K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3rd Semester Elective courses (2 courses) Choose 2 course modules	Course	10				
3 SEMESTER Option B						
Project-Oriented Study in an External Organisation (ESNICTEK3P3N)	Project	25	Passed/Not Passed	Internal examination	Oral exam based on a project	English

Curriculum for the Master's Programme in Innovative Communication Technologies and Entrepreneurship, 2019

Managerial Economics and Entrepreneurship (ESNICTEK3K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3-4 SEMESTER Long Master's Thesis						
Master's Thesis (ESNICTEK4P2)	Project	45	7-point grading scale	External examination	Master's thesis/final project	English
Managerial Economics and Entrepreneurship (ESNICTEK3K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3rd Semester Elective courses (2 courses) Choose 2 course modules		10				
3-4 SEMESTER Long Master's Thesis						
Master's Thesis (ESNICTEK4P3)	Project	50	7-point grading scale	External examination	Master's thesis/final project	English
Managerial Economics and Entrepreneurship (ESNICTEK3K8N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
3rd Semester Elective Courses (1 course) Choose 1 course module	Course	5				
4 SEMESTER						
Master's Thesis (ESNICTEK4P1)	Project	30	7-point grading scale	External examination	Master's thesis/final project	English

3rd Semester Elective Courses (1 course) Choose 1 course module						
Module name	Course type	ECT S	Applied grading scale	Evaluation Method	Assessment method	Language
Algorithmic Content Exposure (ESNICTEK3K6N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Green ICT - Sustainable Business Development (ESNICTEK3K7N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Cyber Security and Trust (ESNICTEK3K4)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English

3rd Semester Elective courses (2 courses) Choose 2 course modules						
Module name	Course type	ECT S	Applied grading scale	Evaluation Method	Assessment method	Language
Algorithmic Content Exposure (ESNICTEK3K6N)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English
Green ICT - Sustainable Business Development	Course	5	7-point grading scale	Internal examination	Written or oral exam	English

Curriculum for the Master's Programme in Innovative Communication Technologies and Entrepreneurship, 2019

(ESNICTEK3K7N)						
Cyber Security and Trust (ESNICTEK3K4)	Course	5	7-point grading scale	Internal examination	Written or oral exam	English

The master's thesis can be conducted as a long master's thesis. If choosing to do a long master's thesis, it has to include experimental work and has to be approved by the study board. The amount of experimental work must reflect the allotted ECTS-credits.

§ 19: ADDITIONAL INFORMATION

All students who have not participated in Aalborg University's PBL introductory course during their Bachelor's degree must attend the introductory course "Problem-based Learning and Project Management". The introductory course must be approved before the student can participate in the project exam. For further information, please see the [course description](#).

§ 20: COMMENCEMENT AND TRANSITIONAL RULES

The curriculum is approved by the dean and enters into force as of 01.09.2019.

The Study Board does not offer teaching after the previous curriculum from 2017 after the summer examination 2020.

§ 21: AMENDMENTS TO THE CURRICULUM AND REGULATIONS
