## TABLE OF CONTENTS

|   |   |
|---|---|
| § 1: Preface .....  | 4 |
| § 2: Basis in Ministerial orders .....  | 4 |
| § 3: Campus .....   | 4 |
| § 4: Faculty affiliation .....  | 4 |
| § 5: Study board affiliation .....  | 4 |
| § 6: Affiliation to corps of external examiners .....   | 4 |
| § 7: Admission requirements .....   | 4 |
| § 8: The programme title in Danish and English .....  | 5 |
| § 9: Programme specifications in ECTS credits .....   | 5 |
| § 10: Rules concerning credit transfer (merit), including the possibility for choice of modules that are part of another programme at a university in Denmark or abroad ..... | 5 |
| § 11: Exemptions .....  | 5 |
| § 12: Rules for examinations .....  | 5 |
| § 13: Rules concerning written work, including the Master's Thesis .....  | 5 |
| § 14: Requirements regarding the reading of texts in a foreign language .....   | 5 |
| § 15: Competence profile on the diploma .....   | 5 |
| § 16: Competence profile of the programme .....   | 6 |
| § 17: Structure and Contents of the programme .....   | 6 |
| § 18: Overview of the programme .....   | 6 |
| § 19: Additional information .....  | 7 |
| § 20: Commencement and transitional rules .....   | 7 |
| § 21: Amendments to the curriculum and regulations .....  | 8 |

## § 1: PREFACE

Pursuant to consolidation Act 778 of August 7, 2019 on Universities (the University Act), the following is established.

The programme also follows the Joint Programme Regulations and the Examination Policies and Procedures for Aalborg University.

## § 2: BASIS IN MINISTERIAL ORDERS

The Master's programme is organised in accordance with the Ministry of Higher Education and Science's Order no. 20 of January 9, 2020 on Bachelor's and Master's Programmes at Universities (the Ministerial Order of the Study Programmes) and Ministerial Order no. 22 of January 9, 2020 on University Examinations (the Examination Order). Further reference is made to Ministerial Order no. 153 of February 26, 2020 (the Admission Order) and Ministerial Order no. 114 of February 3, 2015 (the Grading Scale Order).

## § 3: CAMPUS

The programme is offered in Copenhagen.

## § 4: FACULTY AFFILIATION

The Master's programme falls under The Faculty of Engineering and Science, Aalborg University.

## § 5: STUDY BOARD AFFILIATION

The Master's programme falls under Study Board of Chemistry and Bioscience

## § 6: AFFILIATION TO CORPS OF EXTERNAL EXAMINERS

The Master's programme is associated with the external examiners corps on: Ingeniøruddannelsernes landsdækkende censorkorps – kemi.

## § 7: ADMISSION REQUIREMENTS

### Applicants with a legal right of admission (retskrav)

- Bachelor in Sustainable Biotechnology, Aalborg University

### Applicants without legal right of admission

Additional qualifying programs

- Bachelor in Biotechnology, Aalborg University
- Bachelor of science in Chemical Engineering and Biotechnology, Aalborg University
- Bachelor of engineering in Chemical Engineering and Biotechnology, Biotechnology, Aalborg University
- Bachelor of engineering in Chemical Engineering and Biotechnology, Aalborg University, Esbjerg
- Bachelor of science kemi og bioteknologi, University of Southern Denmark
- Bachelor of science bioteknologi, Århus University
- Bachelor of science bioteknologi, Technical University of Denmark
- Bachelor of engineering bioteknologi, Århus University

As a prerequisite for admission to the master's programme, students must have completed a bachelor programme in technical sciences, a bachelor of engineering programme or a bachelor in natural science.

All applicants without a legal claim must prove that their English language qualifications is equivalent to level B (Danish level) in English.

## **§ 8: THE PROGRAMME TITLE IN DANISH AND ENGLISH**

The Master's programme entitles the graduate to the Danish designation Civilingeniør, cand.polyt. i bæredygtig bioteknologi. The English designation is: Master of Science (MSc) in Engineering (Sustainable Biotechnology).

## **§ 9: PROGRAMME SPECIFICATIONS IN ECTS CREDITS**

The Master's programme is a 2-year, research-based, full-time study programme. The programme constitutes a total of 120 ECTS credits.

## **§ 10: RULES CONCERNING CREDIT TRANSFER (MERIT), INCLUDING THE POSSIBILITY FOR CHOICE OF MODULES THAT ARE PART OF ANOTHER PROGRAMME AT A UNIVERSITY IN DENMARK OR ABROAD**

The Study Board can approve that passed programme elements from other educational programmes at the same level replaces programme elements within this programme (credit transfer).

Furthermore, the Study Board can, upon application, approve that parts of this programme is completed at another university or a further education institution in Denmark or abroad (pre-approval of credit transfer).

The Study Board's decisions regarding credit transfer are based on an academic assessment.

## **§ 11: EXEMPTIONS**

The Study Board's possibilities to grant exemption, including exemption to further examination attempts and special examination conditions, are stated in the Examination Policies and Procedures published at this website:

<https://www.studyservice.aau.dk/rules>

## **§ 12: RULES FOR EXAMINATIONS**

The rules for examinations are stated in the Examination Policies and Procedures published at this website:

<https://www.studyservice.aau.dk/rules>

## **§ 13: RULES CONCERNING WRITTEN WORK, INCLUDING THE MASTER'S THESIS**

In the assessment of all written work, regardless of the language it is written in, weight is also given to the student's formulation and spelling ability, in addition to the academic content. Orthographic and grammatical correctness as well as stylistic proficiency are taken as a basis for the evaluation of language performance. Language performance must always be included as an independent dimension of the total evaluation. However, no examination can be assessed as 'Pass' on the basis of good language performance alone; similarly, an examination normally cannot be assessed as 'Fail' on the basis of poor language performance alone.

The Study Board can grant exemption from this in special cases (e.g., dyslexia or a native language other than Danish).

The Master's Thesis must include an English summary. If the project is written in English, the summary can be in Danish. The summary is included in the evaluation of the project as a whole.

## **§ 14: REQUIREMENTS REGARDING THE READING OF TEXTS IN A FOREIGN LANGUAGE**

It is assumed that the student can read academic texts in his or her native language as well as in English and use reference works etc. in other European languages.

## **§ 15: COMPETENCE PROFILE ON THE DIPLOMA**

The following competence profile will appear on the diploma:

A Candidatus graduate has the following competency profile:

A Candidatus graduate has competencies that have been acquired via a course of study that has taken place in a research environment.

A Candidatus graduate is qualified for employment on the labour market based on his or her academic discipline as well as for further research (PhD programmes). A Candidatus graduate has, compared to a Bachelor, developed his or her academic knowledge and independence so as to be able to apply scientific theory and method on an independent basis within both an academic and a professional context.

## § 16: COMPETENCE PROFILE OF THE PROGRAMME

### The graduate of the Master's programme

#### Knowledge

- Has knowledge within sustainable biotechnology on the use of state of the art biotechnological techniques and methods for process development and exploitation of renewable sustainable resources as replacement for fossil resources and mitigation of green-house gases
- Understand and reflect, on a scientific basis, over the knowledge associated with general biotechnology, microbiological production, sustainability, biomass conversion processes, biorefineries, production of biomaterials, biochemicals and bioactive compounds, and be able to identify scientific problems related to these areas

#### Skills

- Can master the scientific methods and tools of the above-mentioned areas and master the general skills that are tied to work within sustainable biotechnology
- Are able to evaluate and select among the scientific theories, methods, tools and general skills of sustainable biotechnology, and set up new analysis and solution models, on a scientific basis
- Can communicate research based knowledge and discuss professional and scientific problems with both peers and non-specialists

#### Competencies

- Can develop and design biotechnological processes and biorefineries for the sustainable conversion of biomass into valuable products and work with complex, unpredictable and new solutions
- Can independently initiate and carry out discipline specific and cross-disciplinary cooperation and to assume professional responsibility within the area of sustainable biotechnology
- Can independently take responsibility for own professional development and specialization

## § 17: STRUCTURE AND CONTENTS OF THE PROGRAMME

The program is structured in modules and organized as a problem-based study. A module is a program element or a group of program elements, which aim to give students a set of professional skills within a fixed time frame specified in ECTS credits, and concluding with one or more examinations within specific exam periods. Examinations are defined in the curriculum.

The program is based on a combination of academic, problem-oriented and interdisciplinary approaches and organized based on the following work and evaluation methods that combine skills and reflection:

- Lectures
- Classroom instruction
- Project work
- Workshops
- Exercises (individually and in groups)
- Teacher feedback

## § 18: OVERVIEW OF THE PROGRAMME

All modules are assessed through individual grading according to the 7-point scale *or* Pass/Fail. All modules are assessed by external examination (external grading) or internal examination (internal grading or by assessment by the supervisor only).

| Offered as: 1-professional |             |      |                       |                   |                   |          |
|----------------------------|-------------|------|-----------------------|-------------------|-------------------|----------|
| Module name                | Course type | ECTS | Applied grading scale | Evaluation method | Assessment method | Language |
| 1 SEMESTER                 |             |      |                       |                   |                   |          |

|  |         |    |                       |                      |                               |         |
|--|---------|----|-----------------------|----------------------|-------------------------------|---------|
| <a href="#">Advanced Microbiological Production</a><br>(K-BBT-K1-16)                                 | Project | 15 | 7-point grading scale | Internal examination | Oral exam based on a project  | English |
| <a href="#">Biorefinery Principles</a><br>(K-BBT-K1-7)   | Course  | 5  | 7-point grading scale | Internal examination | Written or oral exam          | English |

| <b>3-4 SEMESTER</b><br>Option B  |         |    |                       |                      |                               |         |
| <a href="#">Master's Thesis</a><br>(K-KMB-K4-4)  | Project | 60 | 7-point grading scale | External examination | Master's thesis/final project | English |

**Elective Courses**

On 3 - 4 semester option A or B is chosen

**§ 19: ADDITIONAL INFORMATION**

More detailed information about the programme, including exams and literature, is published on Moodle (learning management system).

All students who have not participated in Aalborg University's PBL introductory course during their Bachelor's degree must attend the introductory course "Problem-based Learning and Project Management". The introductory course must be approved before the student can participate in the project exam. For further information, please see [the course description](#)

**§ 20: COMMENCEMENT AND TRANSITIONAL RULES**

The curriculum is approved by the dean and enters into force as of 1 September 2020.

The Study Board does not offer teaching after the previous curriculum from 2019 after the summer examination 2021.

The Study Board will offer examinations after the previous curriculum, if there are students who have used examination attempts in a module without passing. The number of examination attempts follows the rules in the Examination Order.

## **§ 21: AMENDMENTS TO THE CURRICULUM AND REGULATIONS**

The Vice dean of Education has on February 11, 2025, approved that the prerequisite for enrollment for the exam is erased in the module *Biomass Conversion Processes*, valid from Spring 2025.
